Course length	01/11/2020 – 31/10/2023	
Positions	Positions with scholarship	8
	Positions without scholarship	2
	Positions with scholarship reserved for applicants from foreign universities	1
	TOTAL	11
	OF WHICH WITH SCHOLARSHIP	9
Admission requirements	All second level's degrees and equivalent (specialist and old system degrees)	
Qualifications to be submitted for evaluation and relative score	<p>Educational qualifications and papers assessable up to 20/80:</p> <ul style="list-style-type: none"> - not more than 2 papers (up to 3/80) - graduation mark (up to 7/80) - other Educational qualifications and requirements (specialization diplomas, postgraduate specialization courses, research activity certificates, ecc. Up to 10/80). 	
Thematic areas of reference of the project proposals and of the interview	<p>Research project Research project will have to be inherent in the issues of one of the <i>curricula</i> of the PhD:</p> <p>1. <i>Curriculum Legal, organizational and managerial sciences</i> (n. 3 places with scholarship)</p> <p>Thematic list: 1.1 <i>events and dynamics applicable to the institutional and organizational processes, in their individual and shared identities, having regard not only to their relationship with the technology and the innovative stimulus to the public</i></p>	

resources management but considering the legal and economic profile too;
 1.2 *innovation and development of the current national and international economic system, both on the scientific analysis basis, and the planning, organizational, managerial capacity;*
 1.3 *strategies for the legal, organizational, technological change and innovation in the public and private Institutions and the governmental and non-profit organizations;*
 1.4 *activities and implement ventures aimed to the national economic and social development through the improvement of the quality in the services offered by the public administrations and by the governmental and no profit organizations;*

2. **Curriculum *Government and international relations*** (n. 2 places with scholarship; n. 1 place without scholarship)

Thematic list:

2.1 public legal sciences, under an interdisciplinary and comparative perspective, by an integrated knowledge and by practical law issues, under the point of view of globalization too.

2.2 International policies and relationships among international subjects (States and international organizations), but also between public institutions and the private ones that have become more and more important in the international context (societies, ONG, citizens);

3. **Curriculum *Institutional Sciences, Political Trasformations and Intercultural Communications*** (n. 1 place with scholarship; n. 1 place without scholarship)

Thematic list:

3.1 political changes currently acting at a global level, the processing of innovative theoretical models and the possibility to adopt them in the form of policies;

3.2 Globalization, multiculturalism, theory and practice of cross-cultural communication, cultural and multicultural processes and studies;

3.3 Studies on media and new technologies.

The involved scientific disciplines are those of the following sectors: theoretical-politological (social and political philosophy, political theory, social science philosophy, law philosophy, geopolitics, history and theory of political doctrines, theory of institutions), sociological, communication of art, media and visual communication, media education, philosophy of language and communication, cross-cultural communication, cross-cultural studies.

The research projects may have a disciplinary, multi or cross-disciplinary characters, but they'll have always to show a direct care about the development of theoretical paradigms and of application models according to a cross-cultural point of view, taking into an explicit account both diversities and difference (ethnic-cultural, sexuals, of gender, of skills) of the modern, complex and multicultural societies (and of their intersections), besides their implications and involvements in order to national, transnational and global changes of the political institutions.

4. **Curriculum *Human, historical and educational sciences*** (n. 1 place with scholarship)

Thematic list:

4.1 Italian and European historical development processes, affecting political, cultural, literary, economic and educational changes in medieval, modern and early modern societies and institutions;

4.2 historical relations among the Mediterranean Countries;

	<p>4.3 the development of educational models and of the hermeneutic theories;</p> <p>4.4 technological instruments dedicated to distance learning, the analysis of interaction between educational models and technology and their impact on relational and identitarian dynamics;</p> <p>4.5 analysis and creation of the instruments for the information management, the transformations of work and society; the evolution of productive systems, the transformation of social and professional identity, analysis of the professional practices and workplaces: from production places to workplace learning;</p> <p>5. <i>Curriculum Cultural heritage and Tourism Development</i> (n. 1 place with scholarship)</p> <p>Thematic list:</p> <p>5.1 historical-archaeological, historical-artistic and economic-cultural contexts</p> <p>5.2 territorial and cultural economy problems;</p> <p>5.3 management, organization, but also valorization of the cultural heritage, towards the development of museums and other structures aimed at the fruition of the cultural and historical heritage in modern touristic-economical contexts.</p> <p>Oral examination</p> <p>For oral presentation and debate of candidates' projects, they will be able to use informatic mediums too.</p> <p>The commission will evaluate candidates' knowledge of English language</p>
Criteria for evaluation	<p>The results of preliminary examinations will be published as soon as they'll be available, before of oral examinations, on https://www.unimol.it/https-www-unimol-it-ricerca/dottorati-di-ricerca-2/avvisi/</p> <p>20/80 Educational qualifications and requirements assessable</p> <p>60/80 Research projects:</p> <ul style="list-style-type: none"> • 20/80 <u>evaluation of the project</u> attached to the application • 40/80 <u>oral presentation and argument</u> of the project attached to the application. <i>Besides:</i> <ul style="list-style-type: none"> ○ during the oral examinations the candidates will prove a knowlege of English comparable to B2 level; ○ the oral examinations will see not only an evaluation of the projects, but also candidates' general disciplinary knowledge, as well as their aptitudes to scientific research.
Oral Examination	<p>Date: September 16th, 2020, 10 a.m., according to the scheduling of the Commission</p> <p>based on the number of admitted to the oral exam.</p> <p>Place: Aula 160 posti, Il multi-functional building, De Sanctis street (without civic number), University of Molise, 86100 Campobasso (CB)</p>
