

## **Department of Biosciences and Territory**

### **Position:**

Public selection for n. 1 position Researcher with fixed-term contract (law no. 240 of 30.12.2010, art. 24, paragraph 3, letter a) for Competition Sector 11/B1 GEOGRAPHY, Scientific Disciplinary Sector M-GGR/01 GEOGRAPHY - University of Molise.

### **Program of teaching, student service, and research activities:**

The didactic activities and related service activities for students (reception, guided exercises, etc.) will be carried out within the Geography disciplinary area in the three-year degree, master's degree and PhD courses of the Department of Biosciences and Territory, with particular reference to the activities of the Tourism and Cultural Heritage Program (UNWTO –TedQual Certification). The contract holder's teaching commitment is defined by the Council of the Department of Biosciences and Territory during the planning of teaching activities, according to the specific University regulations.

The research activities will be consistent with the disciplinary scientific sector M-GGR/01 GEOGRAPHY and will assume mobility in space and time as the privileged category of analysis, also in its environmental and territorial implications, in continuity with the Mobility Turn that has characterised the social sciences in recent decades. They will mainly focus on the study aspects inherent to the Prin MIND - Mountains INside the Mountain, aimed at analysing the socio-spatial dynamics and development paths of the Italian mountains and the processes of territorial regeneration triggered by the new narratives on inland areas, and more generally on the research activities carried out at the MoRGaNA Laboratory (Mobility, Regions, Geoeconomics and Network Analysis) in the following research areas: migration, sustainable mobility, tourism and hiking, imagery and representations, geodata and cartography. The research activity may focus on the Italian Apennine areas and more generally on the Mediterranean region, in line with the interdisciplinary character and international projection of the Department.

### **Objectives of scientific productivity (publications, conferences, other types of products) and qualitative characteristics of scientific production:**

Publication of at least 1 article in international journals and 2 articles in A-range peer-reviewed journals on the research topics listed above, with participation in at least one international conference.

**Location of activities:** Dipartimento di Bioscienze e Territorio dell'Università degli Studi del Molise, Sede di Termoli, via Duca degli Abruzzi snc, 86039 Termoli (CB).

**Maximum number of publications that the candidate can present:** 12.

**Department where the selected candidate will be based:** Department of Biosciences and Territory of the University of Molise.

**Language skills required:** Italian language: excellent knowledge of Italian (level adequate for the teaching tasks assigned; the researcher will be required to carry out teaching activities in Italian). Foreign languages: good knowledge of English and one other foreign language.

**Modalities with which the researcher will be required to periodically report the results of the work carried out:** An annual report on the research and teaching activities carried out.
